

Comparison of Multi-Hazard Mitigation and CRS Planning Requirements

One of the activities that communities can take to improve their Community Rating System (CRS) rating (and subsequently lower National Flood Insurance Program [NFIP] premiums) is to develop a CRS plan. The CRS 10-step planning process is consistent with the multi-hazard planning regulations under 44 CFR Part 201. Use this worksheet to compare how the local mitigation planning requirements at 44 CFR Part 201 relate to the CRS planning steps.

More detailed information on CRS plans can be found in Activity 510 of the CRS Coordinator's Manual at <http://www.fema.gov/national-flood-insurance-program/community-rating-system>.
